k What the Capital City Editor From Tokio Expresses His View on Daily Papers in United States.

> DECLARES PAPERS APPEAL MORE TO WOMEN THAN MEN

> Has Made a Slow Tour Around the World Studying Newspapers.

By Leased Wire to The Tribune, NEW YORK, July 9.- That women are responsible for the sensationalism in American newspapers is the belief and the declaration of Mr. G. Date. editor of the Kokumina Shin Bun of Tokio, Japan. The Japanese editor arrived in New York after a slow tour around the world when he studied the newspapers in every big city. G. Date is collecting data for a history of jour-nalism but he does not deny that he is using his information for more prac-

The paper in Tokio of which Editor Date is the head, is a morning journal, but the editor is contemplating issuing an evening edition also. This had something to do with the editor's trip for, as soon as it was decided to give the Kokumina Shin Bun an evening edition the editor started out to see how evening papers were really made. made.

Alarmed in Russia.

He came across Siberia to St. Peters-burg where the bomb proof cellar and burg where the bomb proof cellar and the artillery of the editors alarmed him. Continuing to Berlin he was again discouraged by the alarming quantities of beer which the German editors consumed. Mr. Date thought that an editor must necessarily drink large quantities of beer, judging from his experiences in Berlin. In Paris he failed to keep several engagements because the editors were fighting duels. This added a new note of discouragement. In London the heavy solid looking papers caused the Japanese to believe that no one read them. His most lieve that no one read them. His most pleasant experience so far has been in New York. Giving his impression of the American press and reading public, he says:

Likes American Papers.

Likes American Papers.

"Your papers appeal more to women than to men. Women are sensational in their nature and you make your papers more sensational than those of any other nation. Women in America. I notice, are coming into a more prominent place in journalism and all the big papers have many women reporters."

ors. Mr. Date is going to Washington to confer with the Japanese embassador and is then going to San Francisco, from which point he sails.

STORMS AHEAD FOR TAFT REPUBLICANS

By Leased Wire to The Tribune. WASHINGTON, July 9.—It has just dawned on the Republican leaders of Minnesota that Mr. Gifford Pinchot. Mr. James A. Garfield and others of the Back from Elba' club who are forming a new party to defeat the Taft administration, have stored up a lot of trouble for the northwest which they are going to settle at the conservation congress which meets in St. Paul on September 6, 7 and 9.

Colonel Roosevelt will be one of the speakers in St. Paul. As Mr. Pinchot and Improved in the candidacy of Senator LaFollette for re-election in Wisconsin it is said that Mr. LaFollette would be one of the speakers. Anyway the programme is so strongly anti-Republican that Governor Eberhardt will do all in his power to make it conservative. Meanwhile there is lively speculation as to where the constant hammering at President Taft that Mr. Roosevelt has been encouraging from the insurgents, will lead the private citizen of Oyster Bay. He is getting dangerously near the line of making war on President Taft by promising to speak for Senator Beveridge, and if he joins in making the St. Paul convention an anti-administration demonstration serious injury will follow and he will have to take the responsibility.

CHICAGO PASTORS FIGHT THE "FIGHT PICTURES"

By Leased Wire to The Tribune.

CHICAGO. July 9.—Pastors of twenty Chicago churches will urge their courgegations tomorrow to show disapproval of the Johnson-Jeffries fight pictures, which Tom O'Day, the San Francisco promoter, and the Johnson Fight Picture company hope to make millions out of. The pastors will ask that all possible individual influence be used against the exhibition of the pictures in Chicago. The most remarkable development today against this depraving exhibition, which has spread with marvelous rapidity throughout the country, came when moving picture distributing firms in Chicago denounced the proposition to show the films here and insisted that moving picture men generally opposed them.

Perhaps one of the most important moves against the films is that of the Police Chiefs, association, which is expected to adopt resolutions today that such pictures are "likely to corrupt public morals."

DURHAM, N. C., July 9.—By a system of injections into the blood, Mrs. R. M. Backsley of Hillsboro is reported cured of the most asgravated cuse of pellagra that had come under the observation of medical men in this state.

The treatment used with such success, medical men believe, proves that pellagra is a disease of the blood, rather than the consequence of a corn dist.

Four deaths in one week were recently recorded here. The treatment which was employed on Mrs. Backsley now is being tried on other patients. By Associated Press.

SALT LAKE ELKS NOW IN DETROIT

They Are Royally Received and Are Having Time of Their Lives.

Special to The Tribune. Taft has decided to "hew straight to the line." No comment will be made at the summer capital on doings or utterances at Oyster Bay. This was learned definitely today.

Congressman Poindexter and Senator Beverlege may come and go at Oyster Bay insurgents may surge up and down Sagamore Hill and talk more or less as they like afterward, rumors and reports and even statements may emanate from the Long Island coast or the Outlook office, but there will be neither echo nor protest from the summer capital.

What Colonel Roosevelt thinks of Secretary Ballinger has not been told to President Taft by the colonel or by any one who could speak for him. Politics or policies were not mentioned by Mr. Taft or Mr. Roosevelt at their recent meeting, the two men do not expect to see each other again before election, and they are not mentioned by the network in the personal received by the Detroit Elks formed the two men do not expect to see each other again before election, and they are not mentioned by mr. By Associated Press.

LAS ANIMAS, Colo., July 9.—"Joe Carnon is twenty years behind the times. He will never be elected speaker again, declared Congressman Joe Norris of Nebraska, insurgent leader, here today at the local Chautauqua.

Mr. Norris declared that an effort will be made to elect as the next speaker and servant of the house, instead of master. He declared that Cannon would rather see a Democratic house elected than a progressive Republican house; that the true blue Republicans of the house are the progressives and that party pledges were fulfilled because the progressives held the balance of power.

NEW YORK, July 9.—Five-year-old Thomas Dannis is isolated at Bellevue hospital yesterday afternoon, his little body racked with spasms that seemed to be tearing him to pieces.

The boy began to display the symptoms of nauses on Thursday night and they became worse yesterday morning. A physician was puzzled until the boy's parents recalled that he had been slightly bitten on the lip by a dog on either May 5 or 9. The wound was cauterized at the time and soon healed and nothing was thought of it until little Thomas behalf the balance of power.

Bryan of Nebraska to assist him in gaining the Democratic presidential nomination Silence and gum shoe work was never used to better advantage than it is being used now by the political adherents of the former governor, who want him to lead the Democratic party in 1912. Case of Being Willing. In the case of the two governors there is no doubt that the nomination would be gladly accepted. With Mayor Gaynor it is different. PITIABLE CONDITION OF DECEIVED PEASANTS

cept Employment Under False Representations.

By Leased Wire to The Tribune WASHINGTON, July 9.-That approximate slavery exists in the Hawaiian Islands is the charge made by Samuel Gompers, president of the American Federation of Labor, to the department of commerce and labor. He has filed a memorial on the subject and demanded a full investigation. Sugar planters, acting through the Hawalian government, Gompers charges, have been luring peasants from Harbin, in the interior of Siants from Harbin, in the interior of Siberia, to the islands. Russians and Hawalian agents are engaged in the work. They recruit peasants, Gompers says, by attractive pamphlets and in these and by other means promise the peasants wages of \$45 per month, free homes, fuel, light, furniture, gardens, evening schools, free hospitals, half pay during sickness, free railroad fare and free schools for children. A delegation of 3000 deluded Siberians went to the islands last October and the total number yielded to the lure of the planters was more than 1000. Their experience, in part, is thus set forth by President Gompers:

"Instead of all the comforts above described, the people found roofless wooden shanties with floors of rough boards. The furniture consisted of two benches, a table and few beds. Instead of promised electric lights, kerosene lamps were used; the food was the roots of sugarcane, which the men were to carry from three to seven miles.

"Instead of free transportation to and from work, the men had to walk a distance of five miles, and the time consumed was not included in the working day. Any lateness from five to ten minutes, was punished by a deduction of a quarter-day's pay. The wages paid were \$22 per month for men, and \$13 per month for women. WASHINGTON, July 9.—"That boy is not physically able to carry out the mandates of my husband's will. He is a weak and delicate child and my husband knows it. As to the will, I can only excuse its peculiar provisions on the theory that my husband was mentally unbalanced by reason of his iong illness."

Mrs. Jennie Dyrenforth, widow of Colonel Robert G. Dyrenforth, whose unusual will was filed for probate, made the above comment today while talking of her husband's eccentricities.

Mrs. Dyrenforth declared she would demand her share of the estate, although Colonel Dryenforth made no mention of her in the will, except to say that his foster son, Robert St. George, should not come into the property if he associated in any way with Mrs. Jennie Dyrenforth or Mrs. Laura Knowiton. The latter is a daughter of Mrs. and Mr. Dyrenforth.

Robert St. George Dyrenforth, heir to virtually all the property, providing he complies with the many extraordinary conditions, is now in Chicago with his uncle. All the tasks must be completed before the boy becomes 25 years of age.

WASHINGTON, July 9.—"Bubbles" or "spalis" on the armor plate of the battleship North Dakota were noticed by Secretary Meyer when he made his recent inspection of that vessel, he said today. The substitution of new plates was ordered Immediately.

The question of fixing the responsibility for the defective plates involves broad questions of who should bear the cost of taking off and putting on any of the faulty ones and rests with Assistant Secretary Winthrop.
